PROBLEM STATEMENT

Course Content Simplification Agent

The Challenge

Educational materials often vary in complexity and are not always accessible to learners with different levels of prior knowledge. Students may struggle to grasp key concepts due to jargon-heavy or overly advanced explanations in faculty notes and textbooks. The challenge is to develop an AI-powered agent that can intelligently analyze academic content and reframe explanations based on the learner's current proficiency—ranging from beginner to expert. This would support more inclusive learning and personalized education delivery at scale.

Technology

Use of IBM Cloud Lite services / IBM Granite is mandatory
